SUMMARY

Aspiring Full Stack Java Developer with proficiency in Java, Hibernate, Spring Framework, Spring Boot, and RESTful APIs, and experience in front-end technologies like HTML, CSS, JavaScript, ReactJS and Angular. Skilled in database management (MySQL, MongoDB). Quick learner with a passion for building scalable, efficient web applications.

PROJECT

E-Commerce Website   **Aug 2024- Sep 2024**

- Developed a robust e-commerce website using Spring Boot and Java to handle product management, order processing, and user authentication.
- Integrated MySQL for managing product catalogs, customer data, and transactions.
- Designed and managed user-friendly interfaces using HTML, CSS, JavaScript and Bootstrap for a responsive shopping experience.

Voting Application   **Jul 2024- Jul 2024**

- Developed a secure voting application using Spring Framework and Java, enabling users to cast and manage votes.
- Implemented Spring MVC for managing user interactions and routing within the application.
- Integrated Hibernate for seamless interaction with the MySQL database, ensuring efficient data storage and retrieval.
